

IntelloCut, an enterprise material management system won the first prize at Venture Engine and is set to raise its next round of investment.

'IntelloCut' the flagship product developed by Threadsol Softwares Ltd., has won the Venture Engine Competition in Sri Lanka. IntelloCut emerged as the winner over multiple rounds of evaluation among over 100 entries from Sri Lanka and all over the world.

IntelloCut is an Enterprise Material Management System which saves up to 10% material cost for the apparel, footwear, car seat and upholstery manufacturing industries.

IntelloCut automates and optimizes material ordering, buying, planning, cutting and utilisation workflows hence providing complete enterprise material management with savings worth millions of dollars to its customers.

Venture Engine, a project conceptualized by Blue Ocean Ventures and The Indian Angel Network, provides a boost to an emerging economy of Sri Lanka by promoting and supporting entrepreneurial spirit.
